

CJ & Associates, Inc. has created a unique division whose main focus and commitment is to the design community. It is the responsibility of the Architect & Design Consultant to build relationships and develop new business opportunities.

We feel the key to a successful partnership lies in the ability of our dealership to provide valuable resources to Architects & Designers. It is our goal to remain active and educated with current market and industry trends in order to effectively respond to the project requirements and requests of Architects & Designers.

"I would like to thank CJ & Associates for their outstanding service throughout our recent office relocation.

Being an architectural and interior design firm, our intent was to purchase our furniture from multiple vendors. However, Deb was absolutely the most responsive to all of our needs and our purchase grew to include the majority of our furniture."
