"We needed to spruce up and update our office suite, primarily the public areas, as well as improve the workflow of our office," says Lynne Gehrke, Office Manager of Beck, Chaet, Bamberger & Polsky, S.C., (BCBP Attorneys). "I agreed to meet with CJ & Associates because they were recommended by my sister, the Office Manager for the United Way in Waukesha County. She said that CJ had done a wonderful job with their offices, the workmanship was of a high quality, and their staff was easy to work with."

"A new copy island greatly improved workflow and storage space in the workroom," says Gehrke. "In addition, three offices received new carpet, eleven offices were painted, and all of the doors and door frames in the 45-room suite were painted and varnished.

"By having the ability to perform all of the services we needed, CJ was able to save the firm almost 30 percent over the construction company suggested by the building's management. It was also much easier to deal with one company, rather than multiple vendors for the project. They were also able to work after hours and complete all but some minor details in just nine days."
